Lot Code Format:
Nutek's standard lot number format is an 11-digit code that groups products together for each batch, production system, and production period. The lot number is printed on an adhesive label affixed to each container or stamped directly onto the container.

Lot # 100103001 01

10010 — Assigned product number, system, and production period.

3001 01 — Julian date code for January 1, 2023
- 3 refers to the year 2023
- 001 refers to the 1st day of the year
- 01 refers to the first lot of the day

For traceability purposes, Nutek can determine the plant location, production line, and the date of manufacturing of the product from the lot number.
