

MORINGA-OIL

(*Moringa oleifera* L.)

Moringa oil is a natural, cold-pressed oil made from the seeds of the moringa plant (*Moringa oleifera*).

The oil is best known for its anti-aging properties: studies show that it delays the aging process and can even reverse existing wrinkles and bumps. It protects the cells from harmful influences and cares for the skin.

The reason for the effect of the oil are the numerous antioxidants and other valuable active ingredients. These prevent premature wrinkling, protect the cells and stimulate the skin's regeneration process. The active ingredients contained in moringa oil ensure firm and elastic skin.

Item number:	310140053
Quality:	Wild population
Origin considering customs:	Germany
Distributor:	africrops! GmbH, Zimmerstr. 11, 10969 Berlin, Germany
Value chain:	Moringa seeds from Kenya Cold pressed in Kenya
Country of Origin:	Kenia
Content:	100% pure Moringa-Oil (<i>Moringa oleifera</i>)
Application:	Moringa oil is very versatile. It can be applied to the skin as it is and mixed as an additive in cosmetic products. Due to its anti-aging effect, it is ideally suited for a mixture in facial care products and other cosmetic articles such as body milks, shower gels and hair care products. In addition to its use in cosmetics, moringa oil can also be used as an edible oil.
Durability:	The shelf life in original sealed containers and with recommended storage is at least 3 years.
Storage:	It is recommended to store the Moringa oil in dark, cool and dry conditions. The oil can partially solidify at low temperatures.
Manufacturing:	Made from hand-picked seeds of the moringa plant. The seeds are cold-pressed and the oil is then filtered. No additives are added.

MORINGA-OIL

(*Moringa oleifera* L.)

Characteristics

Appearance	Gold coloured clear oil
Smell and taste	Grassy fresh smell; slightly earthy, nutty taste (typically Moringa oil)
Solubility	Insoluble in water
Free fatty acid content:	< 5mg KOH/g (0,76 KOH/g)
Peroxide	< 15 mEq O2/kg (0,4mEq O2/kg)

Fatty acid composition

Monounsaturated Fatty acids:	78 %
Polyunsaturated Fatty acids:	
Linoleic acid C18:2	0,7 %
Olein acid C18:1	74,6 %
Palmitoleic	1,6 %
Linoleum C18:3	0,1 %
Eicosane C20:1	1,7 %
Eruca C22:1	(0,1%)
Saturated fatty acids:	
Palmitin C16:0	6,1 %
Stearin C18:0	4,8 %
Arachin C20:0	3,1 %
Behenic acid C22:0	6 %
Myristin C14:0	0,1 %
Margarine C17:0	0,1 %
Lignoceric C24:0	0,9 %

Shipping

Minimum order quantity	10 Liters
Package contents	5-Liters

About us:

The africrops! GmbH stands for fair trade at eye level in accordance with the company principle "Trade instead of aid". Through our direct cooperation with our African partners, we can guarantee high product quality, delivery security and fair prices for our producers.
