

MATERIAL SAFETY DATA SHEET

Product Information

Product Description: **Green Banana Powder**

Species/Variety: *Musa acuminata*

Information on ingredients

CAS number: Not available. Made from 100% banana raw material.

Hazards identification

Green banana powder is not considered a hazardous material.

First aid measures

- First aid: Not required
- Eye contact : Keep away from dust, may cause irritation.
- Skin contact : Not required
- Inhalation: Avoid inhalation of dust.

Fire-fighting measures

Not applicable

Accidental release measures

Not applicable

Handling and storage

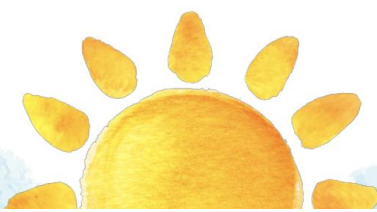

Store in a cool, dry place away from sunlight. Packaged in plastic pouches.

Exposure controls/personal protection

Not applicable

Physical and chemical properties

- Physical state: free-flowing powder form
- Color: yellow to light brown
- Odor: mild typical banana odor; no off-odors.
- Taste: mild typical banana flavor with slight astringency
- Moisture content: 5 – 10%
- Solubility in water: Soluble

**Stability and reactivity**

Not applicable

Toxicological information

Green banana powder is not considered as a toxic substance.

Ecological information

No ecological hazards are involved and associated.

Disposal consideration

Not required, unless required by local regulations.

Transport information

Not applicable

Regulatory information

Not applicable under any known regulation

Other information

This product does not contain any hazardous chemical substances. Product is made from fresh banana fruit material and processed through physical methods (drying and milling).
