Trufo delivers premium truffle competence across the value chain. From international sourcing to product development and packaging.

We operate at industrial scale (50+ tons) production levels and have long standing distribution relationships for frictionless fulfillment worldwide.

Our expert Research and Development team use the latest technology to deliver tailor-made solutions for special needs and applications.

Our team of seasoned industry professionals are ready to deliver world class truffle derived and truffle inspired products.

## STATE OF THE ART PRODUCTION

Our world class production facility was purpose-built near to the source of some of our primary materials, local product expertise and excellent European and global transport links.

With Trufo you benefit from both quality and scale, without compromise.

## GLOBALLY RECOGNISED CERTIFICATION

We are already able to produce Bio and Kosher products  
to EU certification level.

But we're not stopping there  
and will be both IFS and BRC certified by Q4 2021.

## OUR RANGE

Our expertise extends to 5 major product categories, all available for customisation and delivery at scale.

1. PRESERVED CANNED TRUFFLES
2. FREEZE-DRIED TRUFFLES
